-  VAT applicable.

Standard (763 x 408mm) £119
Large (920 x 537mm) £169

OR EMAIL info@fortyfivedegrees.co.uk

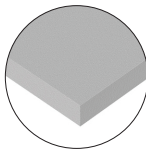

Display Boards / Signage

- 📄 Correx & foam board signs are printed direct to the material, whereas the dibond is printed on a white vinyl and applied to the board and overlaminated for added protection.
- 🕒 7-10 working day turnaround.
- 🏷️ VAT applicable.

Correx

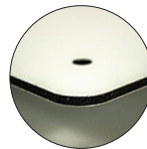

A lightweight but durable and highly economic material made from environmentally friendly polypropylene with a corrugated inner. This material is ideal for point of sale displays and is most famous for its use by estate agents 'For Sale' signs.

5mm Foam Board

Foam signs are lightweight but slightly more rigid than Correx signs and more cost-effective than Dibond making them perfect for indoor signage. They are easy to drill, cut, mount or hang.

For Indoor use only.

Dibond 3mm

This material consists of a polyethylene core pressed between two aluminium sheets making it our most rigid media. Dibond is designed for more permanent fixtures. Comes dilled with radius corner.

VAT on Design & Printing work...

Design work on its own?

VAT is applicable (This would include any design for print or web)

Design work with a finished product?

This depends on what the finished product is.

VAT Rule 1: **When VAT is not applicable (Zero Rated)**

If we design and print 500 A5 flyers you would not have to pay VAT on either the printed flyers or on the design work, as long as the print cost is more than the design cost, this is because the flyers are not applicable to VAT.

So, design of an A5 flyer would be £26 the printing of 500 copies would be £58

So in this case the whole job would be non-vatable.

VAT Rule 2: **When VAT is applicable (Standard Rated)**

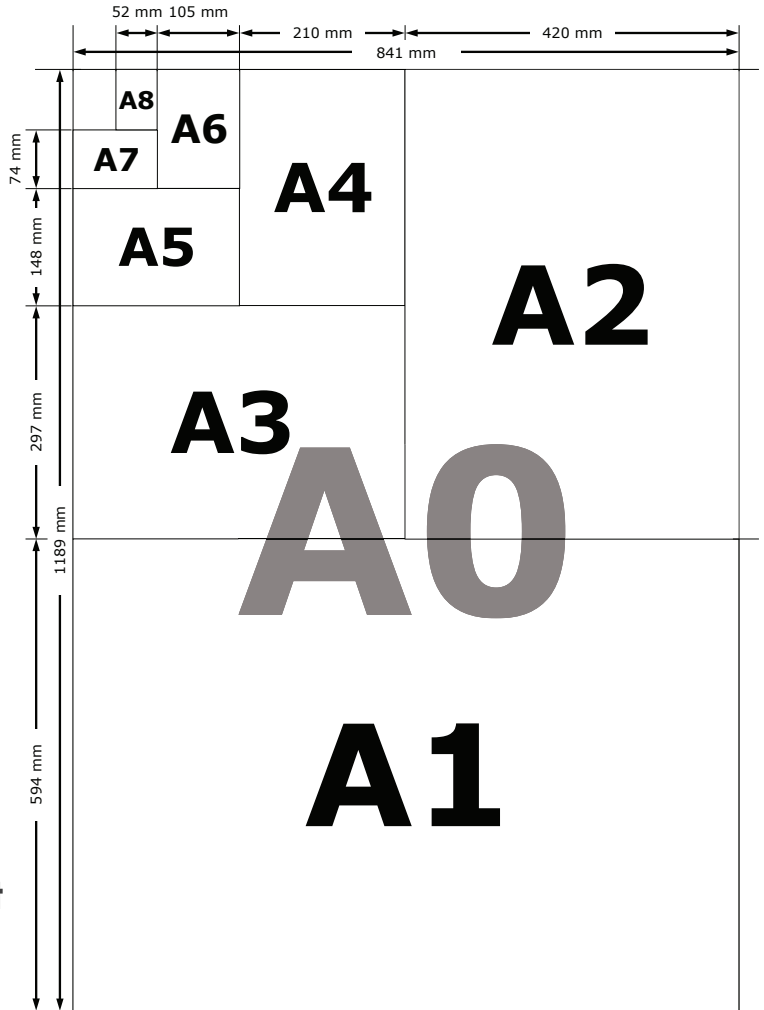

If we design and print you 500 Business Cards you would have to pay VAT on both the printed business cards and on the design work, this is because the Business Cards are applicable to VAT.

So, the design of your Business Cards would be £18.00 and the printing of 500 copies would be £49, however both items would be VAT-able because the business cards are a VAT applicable item.

Please use the following listing to find out what is applicable to VAT (Standard Rated) and what is not (Zero Rated), then apply one of the VAT above rules.
